STaR Team Bulletin No. 7 – False Integrity Error for Absence on the First Day of a Student's Membership
Tuesday, October 31, 2006

The primary purpose of this bulletin is to notify subscribers of a false Integrity error currently being generated in SAIS.

The Arizona Department of Education is aware of and is working to correct an issue related to SAIS Student Integrity processing. The following error is being erroneously reported for students on the ADM Integrity Report:

Error Code -44103, Student may have only a partial absence on first or last day of membership.

The STaR Team suspects that in the overwhelming majority of cases, the error message is false and that once the issue is resolved, students who are currently failing with this error message will pass. However, this error message would be valid for any student who was reported with a full day of absence on their enrollment date if the enrollment date is any day other than the day indicated as the first day of school in the LEA Calendar.

We strongly suggest that before taking any action to change data that currently exists in SAIS for students who are failing in Integrity processing with the message indicated above, personnel from local educational agencies review the information published in "Defining the First Day of Membership" available for download at: <http://>

Should a student continue to fail in SAIS Student Integrity processing after technical issues are resolved at ADE, it would then be in the best interests of the LEA to make further inquiries and, if appropriate, submit corrections to SAIS at that time.
